

INVESTIGATION INTO NOVEL IMAGING MODALITY

MASON
TECHNOLOGY

BACKGROUND

Mason Technology has over 230 years of industry experience and is one of Ireland's leading scientific solutions providers. They offer complete application solutions to Scientific, Medical, Industrial, Academic and Food Science markets. Mason Technology has developed solid partnerships with some of the world's leading brands in Chromatography, Spectroscopy, Microscopy, Biotechnology, Vacuum Systems and Laboratory and Industrial Weighing equipment.

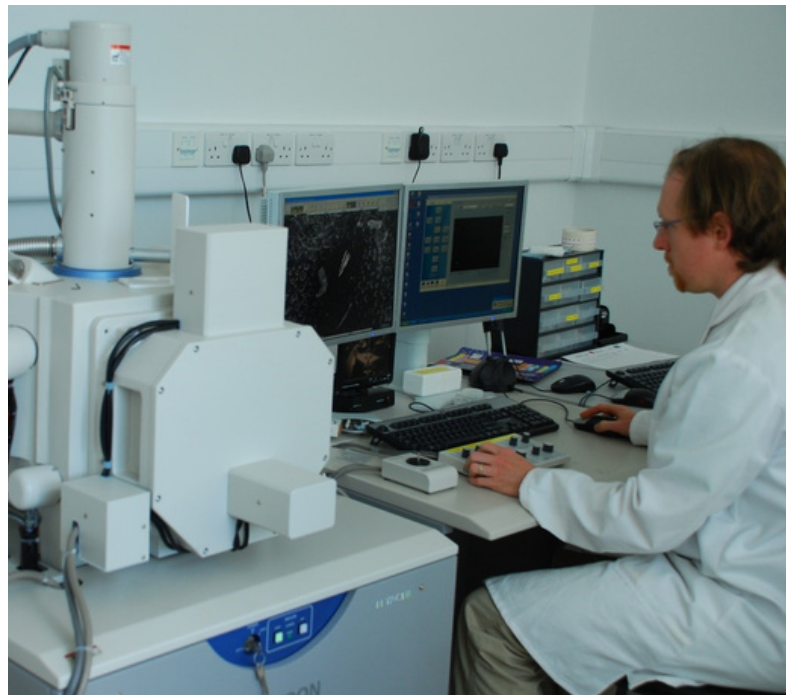

THE NEED

Mason Technology approached CAPPa to investigate a novel imaging modality applied in the life science sector.

THE SOLUTION

CAPPa provided Mason Technology with the right equipment, such as bespoke, multiplexed, multiwavelength LED light sources and materials of appropriate tissue culture ensembles, to verify the initial viability of their concept.

CAPPa personnel, including two senior researchers and one Bio-Explore collaborator, provided Mason Technology with the expertise to test the concept efficiently and to identify and indicate possible avenues to follow up.

BENEFITS OF THE ENGAGEMENT

Collaborating with CAPPa gave Mason Technology the opportunity to leverage facilities and expertise which they otherwise may not have been able to access. CAPPa's knowledge and expertise complimented Mason Technology's internal knowledge and expertise.

"THE TEAM AT CAPPa PROVIDED US WITH EXCEPTIONAL SERVICE FROM THE START OF THE PROJECT TO THE END. THEY WERE ALWAYS ON HAND TO OFFER THEIR EXPERTISE AND ANSWER ANY QUESTIONS WE HAD THROUGHOUT THE PROJECT."

- Peter Brennan, Managing Director, Mason Technology Ltd.
